CONTENTS

No. 1 (February 1945)

PAGE

1. Water plants in the Gezira canals. A study of aquatic plants and their control in the canals of the Gezira cotton area (Anglo-Egyptian Sudan). By F. W. Andrews. (With Plate 1 and 8 Text-figures) 1

2. The competition between barley and certain weeds under controlled conditions. By Harold H. Mann and T. W. Barnes 15

3. A comparative study of onion varieties in relation to bolting and yield when grown from sets. By M. Holdsworth. (With Plate 2 and 5 Text-figures) 22

4. The prevention of seed-borne diseases of flax. III. The dusting, short wet and fixation methods of seed disinfection in relation to storage of the seed. By John Colhoun. (With 1 Text-figure) 34

5. Chemical changes in beech litter due to infection by *Marasmius peronatus* (Bolt.) Fr. By G. C. M. Harris 38

6. Mould deterioration of feeding stuffs in relation to humidity of storage. Part III. The isolation of mould species from feeding stuffs stored at different humidities. By Douglas Snow 40

7. Certain aspects of resistance of plum trees to bacterial canker. Part I. Some biochemical characteristics of *Pseudomonas mors-prunorum* Wormald and related phytopathogenic bacteria. By Dagny Erikson 44

8. The suppression of one plant virus by another. By F. C. Bawden and B. Kassanis. (With Plate 3) 52

9. The economic importance of the house sparrow, *Passer domesticus* L.: a review. By H. N. Southern, M.A., F.Z.S. 57

10. The influence of crucifers and mustard oil on the emergence of larvae of the potato-root eelworm, *Heterodera rostochiensis* Wollenweber. By C. Ellenby, B.Sc., Ph.D. 67

11. Tyroglyphid mites in stored products. Methods for the study of population density. By M. E. Solomon. (With 1 Text-figure) 71

12. The use of cobalt salts as indicators of humidity and moisture. By M. E. Solomon . 75

13. Reviews 86

14. Laws of the Association of Applied Biologists 87

No. 2 (May 1945)

1. Plant pathology: teaching and research. By William Brown, F.R.S. (With Frontispiece) 89

2. The infected root-hair count for estimating the activity of *Plasmodiophora brassicae* Woron. in the soil. By G. Samuel and S. D. Garrett. (With Plates 4 and 5) 96

3. The effect of sulphanilamide and other bacteriostatic drugs on the growth of moulds. By D. Snow and P. S. Watts. (With Plates 6 and 7 and 7 Text-figures) 102

PAGE

4. Certain aspects of resistance of plum trees to bacterial canker. Part II. On the nature of the bacterial invasion of *Prunus* sp. by *Pseudomonas mors-prunorum* Wormald. By DAGNY ERIKSON . 112

5. Certain aspects of resistance of plum trees to bacterial canker. Part III. The action of cell-free filtrates of *Pseudomonas mors-prunorum* Wormald and related phytopathogenic bacteria on plum trees. By DAGNY ERIKSON and H. B. S. MONTGOMERY. (With 2 Text-figures) . . 117

6. On the spread of crinkle in Royal Sovereign strawberries in south-west England. By A. BEAUMONT and L. N. STANILAND. (With 4 Text-figures) 123

7. The control of the sheep-tick (*Ixodes ricinus* L.) by treatment of farm stock. By A. MILNE, M.A., PH.D. 128

8. Evaluation of materials for louse control. By M. ASCHNER and J. MAGER. (With 3 Text-figures) 143

9. Wireworm populations in relation to crop production. I. A large-scale flotation method for extracting wireworms from soil samples and results from a survey of 600 fields. By G. F. COCKBILL, PH.D., V. E. HENDERSON, B.SC., D. M. ROSS, PH.D. and J. H. STAPLEY, B.SC., A.R.C.S. (With 4 Text-figures) 148

10. Observations on the biology and experiments on control of the mangold fly (*Pegomyia betae* Curtis) on sugar beet. By A. ROEBUCK, F. T. BAKER and J. H. WHITE. (With 2 Text-figures) . 164

11. The occurrence of *Anguillulina dipsaci* (Kühn.) on weed hosts, including new host records in fields of oats affected by 'tulip-root'. By L. N. STANILAND, A.R.C.S., D.I.C. 171

12. A simple automatic window-opening device for temperature control in greenhouses. By O. V. S. HEATH and E. J. WHITCHER. (With 3 Text-figures) 173

13. Rhizomatous grass weeds and *Ophiobolus graminis* Sacc. By ALAN G. WALKER, PH.D. . 177

14. Proceedings of the Association of Applied Biologists: 6 October 1944

Applied biology in Tasmania. By J. W. EVANS, M.A., D.SC. 179

Applied entomology in South America. By C. B. WILLIAMS, M.A., SC.D. . . . 180

15. Proceedings of the Association of Applied Biologists: 10 November 1944. Discussion on nomenclature problems of the applied biologist. I. Reasons for name-change and the stability of names. By J. RAMSBOTTOM, M.A., DR.SC. II. What are mycologists doing about nomenclature? By G. R. BISBY, M.A., PH.D. III. Names of timber trees. By B. J. RENDLE, B.SC., A.R.C.S. IV. How shall we name insects? By A. ROEBUCK. V. Synonymy of Aphididae. By I. THOMAS, PH.D. VI. The International Code of Zoological Nomenclature. By FRANCIS HEMMING, C.M.G., C.B.E. 181

Report of the Council of the Association of Applied Biologists for the year 1944 . . . 189

Plant Pests and Diseases Committee: Report for 1944 190

Hon. Editors' Report for 1944 190

Report of the Honorary Treasurer for the year ended 31 December 1944 191

Accounts 192

No. 3 (AUGUST 1945)

1. The parasitism of *Striga hermonthica* Benth. on *Sorghum* spp. under irrigation. I. Preliminary results and the effect of heavy and light irrigation on Striga attack. By F. W. ANDREWS. (With 1 Text-figure) 193

2. The influence of date of lifting and method of storing on loss of onion bulbs harvested in 1943. By E. R. WALLACE and C. J. HICKMAN. (With 1 Text-figure) 200

PAGE

3. Black scurf and stem canker of potato (*Corticium Solani* Bourd. & Galz.). Further field studies on the use of clean and contaminated seed potatoes and on the contamination of crop tubers. By T. Small, Ph.D., A.R.C.S. 206

4. Experiments on the control of white rot (*Sclerotium cepivorum* Berk.) in onions. By J. R. Booer, Ph.D., B.Sc. (With 1 Text-figure) 210

5. Gliotoxin, a fungistatic metabolic product of *Trichoderma viride*. By P. W. Brian and H. G. Hemming. (With 1 Text-figure) 214

6. Studies in the dynamics of disinfection. IV. The reaction between phenol and *Bact. coli*: the true shape of the probit-log survival-time curve. By R. C. Jordan, Ph.D. and S. E. Jacobs, Ph.D. (With 7 Text-figures) 221

7. The use of abrasives in the transmission of plant viruses. By H. Kalmus and B. Kassanis. (With Plate 8) 230

8. Changes in wireworm population associated with cropping. By H. W. Miles and M. Miles 235

9. Control of the potato-root eelworm, *Heterodera rostochiensis* Wollenweber, by allyl isothiocyanate, the mustard oil of *Brassica nigra* L. By C. Ellenby, B.Sc., Ph.D. 237

10. Studies upon the copper fungicides. VII. The solution of copper from dressings on the pea seed. By R. L. Wain and E. H. Wilkinson 240

11. Studies upon the copper fungicides. VIII. The penetration of copper into germinating peas. By R. L. Wain and E. H. Wilkinson 243

12. The mode of action of sheep dips. By E. T. Burtt, M.A., Ph.D. 247

13. Proceedings of the Association of Applied Biologists: 8 December 1944. Bloat or eelworm disease of onions: recent investigations. By T. Goodey, D.Sc. Symposium on the carrot fly: 1. The biology and control of the carrot fly. By F. R. Petherbridge, M.A., Dip.Agric. (Cantab.), D. W. Wright, M.A. and D. G. Ashby, B.A. (With 1 Text-figure.) 2. The carrot fly in the Midlands. By A. Roebuck. 3. Investigations on the control of carrot fly (*Psila rosae* F.) in gardens. By G. Fox Wilson. (With 7 Text-figures) 261

14. Proceedings of the Association of Applied Biologists: 23 March 1945. Symposium on the genetical relations of plants and animals to their pests and diseases: Introduction: the genetic analysis of disease. By C. D. Darlington. 'Constitution' in cattle in relation to pests and diseases. By J. Hammond. Observations on heritable disease in poultry. By M. S. Pease. Heritable susceptibility of poultry to cancer virus. By J. G. Carr. Inheritance of resistance to blight in potatoes. By W. Black. Some genetical aspects of resistance to potato viruses. By G. Cockerham. Diseases and pests at the Welsh Plant Breeding Station, Aberystwyth. By T. J. Jenkin. General discussion and summing up. By C. B. Williams 277

15. Reviews 283

No. 4 (November 1945)

1. The influence of periodic fallowing on the prevalence of viable weed seeds in arable soil. By Winifred E. Brenchley and Katherine Warington. (With 5 Text-figures) 285

2. The effect of eyespot (*Cercosporella herpotrichoides* Fron.) on wheat and the influence of nitrogen on the disease. By Mary D. Glynne, W. M. Dion and J. W. Weil. (With Plate 9 and 6 Text-figures) 297

3. A comparison of *Fusarium avenaceum* and *Fusarium caeruleum* as causes of wastage in stored potato tubers. By F. Joan Moore. (With 1 Text-figure) 304

PAGE

4. The effect of disinfecting and bruising seed potatoes on the incidence of dry rot (*Fusarium caeruleum* (Lib.) Sacc.). By T. SMALL, PH.D., A.R.C.S. 310

5. Field trials of copper fungicides for the control of potato blight. I. Foliage protection and yield. By E. C. LARGE, B.SC., A.R.I.C. (With 4 Text-figures) 319

6. Blind-seed disease of rye-grass (*Phialea temulenta* Prill. & Delacr.). By E. L. CALVERT and A. E. MUSKETT. (With Plates 10 and 11 and 1 Text-figure) 329

7. The incidence and distribution of some diseases of the adult honeybee (*Apis mellifera* L.) in England and Wales. By C. G. BUTLER. (With 4 Text-figures) 344

8. Soil populations of beet eelworm (*Heterodera schachtii* Schm.) in relation to cropping. By F. G. W. JONES, M.A. (With 19 Text-figures) 351

INDEX OF AUTHORS

PAGE

ANDREWS, F. W. Water plants in the Gezira canals. A study of aquatic plants and their control in the canals of the Gezira cotton area (Anglo-Egyptian Sudan). (With Plate 1 and 8 Text-figures) . 1
—— The parasitism of *Striga hermonthica* Benth. on *Sorghum* spp. under irrigation. I. Preliminary results and the effect of heavy and light irrigation on Striga attack. (With 1 Text-figure) . . 193
ASCHNER, M. and MAGER, J. Evaluation of materials for louse control. (With 3 Text-figures) . . 143
ASHBY, D. G. *See* Petherbridge, F. R. *et al.* . 262

BAKER, F. T. *See* Roebuck, A. *et al.* . . . 164
BARNES, T. W. *See* Mann, Harold H. . . . 15
BAWDEN, F. C. and KASSANIS, B. The suppression of one plant virus by another. (With Plate 3) . 52
BEAUMONT, A. and STANILAND, L. N. On the spread of crinkle in Royal Sovereign strawberries in south-west England. (With 4 Text-figures) . 123
BISBY, G. R. What are mycologists doing about nomenclature? 183
BLACK, W. Inheritance of resistance to blight in potatoes 279
BOOER, J. R. Experiments on the control of white rot (*Sclerotium cepivorum* Berk.) in onions. (With 1 Text-figure) 210
BRENCHLEY, WINIFRED E. and WARINGTON, KATHERINE. The influence of periodic fallowing on the prevalence of viable weed seeds in arable soil. (With 5 Text-figures) 285
BRIAN, P. W. and HEMMING, H. G. Gliotoxin, a fungistatic metabolic product of *Trichoderma viride*. (With 1 Text-figure) 214
BROWN, WILLIAM. Plant pathology: teaching and research. (With Frontispiece) 89
BURTT, E. T. The mode of action of sheep dips . 247
BUTLER, C. G. The incidence and distribution of some diseases of the adult honeybee (*Apis mellifera* L.) in England and Wales. (With 4 Text-figures) 344
